# ENDORSEMENT AND STATEMENT BY THE BOARD OF DIRECTORS AND THE CEO

---

The Interim Financial Statements of Arion Bank for the period ended 31 March 2015 include the Interim Financial Statements of Arion Bank ("the Bank") and its subsidiaries, together referred to as "the Group".

## Outlook

The outlook for the Icelandic economy is positive. Economic growth, which slowed somewhat in the latter half of 2014, is now expected to be 2.7% in 2015 and to reach 3% in 2016 and beyond. The uncertainty regarding the economy is mainly linked to the expected lifting of the capital controls currently in place. The government and the Central Bank, along with local and international advisors, are preparing to lift the controls, and public announcements by both the prime minister and the minister of finance indicate that progress will be made in the near term. The increased foreign exchange reserves of the Central Bank, the successful re-entry of the Bank into the international capital markets and the improved terms of trade for Iceland should contribute to a favorable outcome. Another uncertainty regarding the economy is the current wage round being negotiated between employers and a number of large labour unions in Iceland. Excessive pay rises could temporarily increase inflation from the current 1% level and force the Central Bank to hike rates.

Arion Bank is a leading universal bank on the Icelandic market and has as such actively contributed to the recovery of the Icelandic economy. In recent years Arion Bank has systematically reduced risk in the Bank's loan portfolio by increasing the proportion of loans to individuals, most of which have been first lien mortgages. Loans are now evenly split between individuals and corporate. Furthermore, the distribution of the corporate loan book reflects the relative size of sectors in the Icelandic economy. The quality of the loan portfolio has continued to improve and the ratio of problem loans is now close to levels seen at banks in the other Nordic countries, especially when measured as a proportion of equity.

The Bank has strategically positioned itself as a market leader in Iceland in loans to new businesses in the export sector, health care and energy-intensive industries. The Bank aims to further strengthen its position in these areas. The Bank has also augmented its international loan portfolio by lending to businesses involved in fish-processing and the fisheries in neighboring countries, thus supporting growth while at the same time reducing geographical risk.

The Bank has successfully sold a number of shareholdings acquired by the Bank while restructuring the finances of some of its corporate clients. The Bank has, furthermore, actively managed a small number of such holdings and now aims to concentrate on selling such remaining shareholdings. In April 2015 Arion Bank sold its shareholding in the real estate company Eik fasteignafélag hf. in relation to the listing of the company on NASDAQ Iceland. Furthermore, the shareholding in the telecommunications company Síminn hf. is expected to be sold in the second half of 2015 in relation to the listing of the company on NASDAQ Iceland. The Bank is financially robust as demonstrated by the new Leverage Ratio of 14.5% (see Note 39) which the Bank will disclose in the future. The Bank's capital strength, the positive outlook assigned by S&P and planned new funding enables Arion Bank to provide financial backing for its retail and corporate customers as their business expands, both domestically as well as internationally.

## Operations during the period

Net earnings amounted to ISK 14,908 million for the period ended 31 March 2015. Net earnings are greatly affected by the sale and listing of the Group's direct and indirect shareholding in Refresco Gerber and the largest real estate company in Iceland, Reitir fasteignafélag hf. The Group's equity amounted to ISK 177,115 million at period end. The capital adequacy ratio of the Group, calculated according to the Financial Undertakings Act, was 23.9% and Tier 1 capital was 21.2%, which comfortably meets the requirements set by law and the Financial Supervisory Authority ("FME"). The liquidity position was also strong at period end and well above the regulatory minimum.

The Group performed well during the period and operations were characterized by greater stability. Net interest income increase slightly compared to the same period in 2014 despite the fact that inflation was lower than in the same period in the previous year. Net commission income increased substantially between years, or by 19%, the increase generated across the Bank. The net valuation change on loans was positive by ISK 1.8 billion, which bears witness to the successful restructuring of the loan portfolio. Net financial income totals ISK 7.5 billion, a significant proportion of this relating to the holding in Refresco Gerber following the company's listing. The Bank's equities and bond portfolios also performed well during the period. Other operating income is greatly affected by the profit of associated companies and is mainly related to the sale and listing of Reitir fasteignafélag hf. on NASDAQ Iceland.

The main change on the Balance Sheet from year end 2014 is related to funding of the Bank, i.e. the issue of new senior unsecured bonds, amounting to ISK 45 billion, and an increase in deposit base after a slight reduction at the end of 2014. This increase is reflected on the asset side by an increase in Bank accounts and Loans to credit institutions.

On 3 March 2015 Arion Bank launched its inaugural euro senior unsecured benchmark transaction, the first by an Icelandic bank since 2008, when the Bank sold EUR 300 million 3-year fixed rate bonds to around 100 international investors. The demand for bonds was in excess of EUR 675 million which enabled the Bank to price at interbank rates +3.1%, or 0.15% lower than initial guidance. The transaction saw very strong demand from fund managers, pension funds and banks which combined accounted for 82% of the bonds sold. Geographically the investors from the UK and Nordics accounted for 48% and 31% of bonds sold respectively. The Bank's inaugural bond is the first EUR public transaction and the single largest transaction, and the most important step taken by an Icelandic bank to re-enter the international capital markets since 2008. The Bank also continued the regular issuance of domestic covered bonds and commercial paper.

## ENDORSEMENT AND STATEMENT BY THE BOARD OF DIRECTORS AND THE CEO

---

The Group had 1,112 full-time equivalent positions at the end of the period, compared with 1,120 at the end of 2014; 848 of these positions were at Arion Bank, compared with 865 at the end of 2014.

### Group ownership

Arion Bank is a group of financial undertakings which provide comprehensive financial services to companies, institutions and private customers. These services include corporate banking, retail banking, investment banking and asset management. The Group includes subsidiaries in the real estate sector, card services and insurance.

Kaupskil ehf., a company owned by Kaupthing hf., holds 87% of the shares in Arion Bank. The remaining shareholding of 13% is held by Icelandic State Financial Investments on behalf of the Icelandic government.

### Endorsement of the Board of Directors and the Chief Executive Officer

The Interim Financial Statements of Arion Bank for the period ended 31 March 2015 have been prepared in accordance with International Financial Reporting Standards (IAS 34 Interim Financial Reporting) as adopted by the European Union and additional requirements in the Icelandic Act on Financial Statements, Act on Financial Undertakings and Rules on Accounting for Credit Institutions, where applicable, to the extent that they are not inconsistent with the requirements of IFRS as adopted by the EU.

It is our opinion that the Interim Financial Statements give a true and fair view of the financial performance of the Group for the period ended 31 March 2015 and its financial position as at 31 March 2015.

Further, in our opinion the Interim Financial Statements and the Endorsement of the Board of Directors and the CEO give a fair view of the development and performance of the Group's operations and its position and describe the principal risks and uncertainties faced by the Group.

The Board of Directors and the CEO have today discussed the Interim Financial Statements of Arion Bank for the period ended 31 March 2015 and confirm them by means of their signatures.

Reykjavík, 12 May 2015

## GENERAL INFORMATION

Arion banki hf., the Parent Company, was established 18 October 2008 and is incorporated and domiciled in Iceland. The registered office of Arion banki hf. is located at Borgartún 19, Reykjavík. The Interim Financial Statements for the period ended 31 March 2015 comprise the Parent Company and its subsidiaries (together referred to as "the Group").

### 1. Basis of preparation

#### *Statement of compliance*

The Interim Financial Statements are consolidated and have been prepared in accordance with International Financial Reporting Standard IAS 34 Interim Financial Reporting as adopted by the European Union and additional requirements in the Icelandic Act on Financial Statements, Act on Financial Undertakings and rules on Accounting for Credit Institutions, where applicable, to the extent that they are not inconsistent with the requirements of IFRS as adopted by the EU. The Interim Financial Statements do not include all the information and disclosures required in the Annual Financial Statements, and should be read in conjunction with Arion Bank's Annual Financial Statements for the year 2014. The statements are available at Arion Bank's website [www.arionbanki.is](http://www.arionbanki.is).

The Interim Financial Statements were approved and authorised for issue by the Board of Directors of Arion Bank on 12 May 2015.

#### *Basis of measurement*

The Interim Financial Statements are prepared on the historical cost basis except for the following:

- financial assets and financial liabilities held for trading are measured at fair value;
- financial assets and financial liabilities at fair value are measured at fair value;
- investment properties are measured at fair value; and
- non-current assets and disposal groups classified as held for sale are stated at the lower of their carrying amount and fair value, less costs to sell.

#### *Functional and presentation currency*

The Interim Financial Statements are presented in Icelandic Krona (ISK), which is the Parent Company's functional currency, rounded to the nearest million unless otherwise stated. At the end of the period the exchange rate of the ISK against the USD was 137.27 and 147.35 for the EUR (31.12.2014: USD 127.46 and EUR 154.28).

### 2. Significant accounting estimates and judgements in applying accounting policies

The preparation of the Interim Financial Statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and in any future periods affected.

The key sources of estimation uncertainty are within:

- impairment losses and reversal of impairment losses on loans; and
- investments in associates.

## OPERATING SEGMENT REPORTING

Segment information is presented in respect of the Group's operating segments based on the Group's management and internal reporting structure. Segment performance is evaluated based on earnings before tax.

Inter segment pricing is determined on an arm's length basis. Operating segments pay and receive interest to and from Treasury on an arm's length basis to reflect the allocation of capital, funding cost and relevant risk premium.

### Operating segments

The Group comprises six main operating segments:

**Asset Management** comprises Institutional Asset Management, Private Banking and Investment Services. Asset Management manages financial assets on behalf of its customers according to a pre-determined investment strategy. Asset Management also administers pension funds. In addition the division is the main distributor of funds managed by Stefmir hf. to individuals, companies and institutional investors as well as distributing funds managed by international fund management companies. Stefmir hf. is an independently operating financial company owned by Arion Bank. Stefmir manages a broad range of mutual funds, investment funds and institutional investor funds.

**Corporate Banking** provides comprehensive financial services and customized solutions to larger corporate clients in Iceland. Corporate Banking provides a full range of conventional lending products, deposit accounts as well as value added electronic corporate solutions to meet the needs of each customer.

**Investment Banking** is divided into Corporate Advisory, Capital Markets and Research. Corporate Advisory advises customers on securities offerings and the admission of securities for trading on regulated securities markets and also provides M&A advisory services. Capital Markets handles securities brokerage and foreign exchange trading for the Bank's customers. Research publishes regular analyses of listed securities, the major business sectors, markets and the Icelandic economy and also produces economic forecasts. Investment Banking's customers are private individuals, companies and institutions.

**Retail Banking**, including Arion Bank Mortgages Institutional Investor Fund and AFL - sparisjóður, provide a comprehensive range of services. That includes among other advice on deposits and loans, savings, payment cards, pension savings, insurance, securities and funds. To maximize operational efficiency the branch network is divided into six clusters, with the smaller branches capitalizing on the strength of larger units within each cluster. Customers of Retail Banking's 25 branches all around Iceland are over 100,000.

**Treasury** is responsible for the Bank's liquidity management as well as currency and interest rate management for the Bank. The other main functions of Treasury are the internal pricing of interest rates and currency and liaison with other financial institutions.

**Other divisions and Subsidiaries** include market making in domestic securities and currencies. The subsidiaries are Eignabjarg ehf., Eignarhaldsfélagið Landey ehf., Okkar líftryggingar hf., Valitor holding hf., BG12 slhf., EAB 1 ehf. and other smaller entities of the Group.

**Headquarters:** Overhead, Risk Management, Accounting, Legal, Corporate Development and Marketing and Operations.

<b>Balance at the end of the period .....</b>	<b>25,567</b>	<b>3,940</b>	<b>29,507</b>

### *Significant accounting estimates and judgements*

Key sources of estimation uncertainty are impairment losses on loans.

The Group reviews its loan portfolios to assess impairment at least quarterly as further described in Note 53 in the Annual Financial Statements for 2014. The specific component of the total allowance for impairment applies to financial assets evaluated individually for impairment and is based on management's best estimate of the present value of the cash flows that are expected to be received. In estimating these cash flows, management makes judgements about a debtor's financial situation and the net realisable value of any underlying collateral. Each impaired asset is assessed on its merits, the workout strategy and estimate of cash flows considered recoverable are independently reviewed by the Credit Risk function.

<b>Bonds and debt instruments designated at fair value .....</b>	<b>63,796</b>	<b>63,273</b>

The total amount of pledged bonds at the end of the period was ISK 18.0 billion (31.12.2014: ISK 18.0 billion). Pledged bonds comprise Icelandic Government Bonds that were pledged against funding received and included in Due to credit institutions and Central Bank as well as short positions included in Financial liabilities at fair value.

## 21. Fair value hierarchy

The Group uses the following hierarchy for determining and disclosing the fair value of assets and liabilities by valuation technique:

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities;

Level 2: valuation techniques for which all significant inputs are market observable, either directly or indirectly; and

Level 3: valuation techniques which include significant inputs that are not based on observable market data.

For assets and liabilities that are recognised at fair value on a recurring basis, the Group determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

*Assets and liabilities recorded at fair value by level of the fair value hierarchy*

<b>Financial liabilities not carried at fair value .....</b>	<b>749,100</b>	<b>745,795</b>	<b>3,305</b>

Financial assets and financial liabilities predominantly bear interest at floating rates. For assets and liabilities not at floating rates fair value is determined by Level 2 methods for which the valuation input is market observable interest rates.

Retail mortgages are estimated by using the discount cash flow method with the interest rates offered on new loans, taking into account mortgaging. Defaulted loans are presented at book value as no future cash flow is expected on them. Instead they are written down according to their estimated potential recovery value. Other loans, including corporate loans, are presented at book value as they are generally of a shorter duration than retail mortgages and the interest rate risk on them is therefore limited.

<b>Investment in associates</b> .....	<b>24,965</b>	<b>21,966</b>

In January the Bank sold 3.5% shareholding in Reitir fasteignafélag hf. At the end of March the Bank offered 13.3% shareholding for sale in connection with the listing of Reitir fasteignafélag hf. on NASDAQ Iceland in April 2015. The sale of this shareholding took place beginning of April but the total effects of Reitir fasteignafélag hf. on the Statement of Comprehensive Income is ISK 4,224 million in the first quarter of 2015.

#### *Significant accounting estimates and judgements*

The Group accounts for investments in associates based on the equity method less applicable impairment. The impairment testing uses management valuation techniques and assumptions such as EBITDA multiples. Alternative assumptions could potentially result in significantly different carrying values but management considers that the impaired value is based on the most probable outcomes under current market conditions.

# NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

## 24. Intangible assets

Intangible assets comprise four categories: Goodwill, Infrastructure, Customer Relationship and Related Agreements and Software. Goodwill arises on the acquisition of subsidiaries. Infrastructure and Customer Relationship and Related Agreements originate as a premium in connection with the acquisition of business activities in subsidiaries, while Software originates from the acquisition of software licenses and the introduction of the software into the Group's operations.

### 30. Pledged assets

<i>Pledged assets against liabilities</i>	31.3.2015	31.12.2014
Assets, pledged as collateral against borrowings .....	238,248	233,191
Assets, pledged as collateral against loans from credit institutions and short positions .....	17,990	17,973
<b>Pledged assets against liabilities</b> .....	<u>256,238</u>	<u>251,164</u>

The Group has pledged assets against borrowings, both issued covered bonds and other issued bonds and loan agreements. The total value of those pledged assets was ISK 238 billion at the end of the period (31.12.2014: ISK 233 billion). Those assets were mainly pool of mortgage loans to individuals, loans to real estate companies, wholesale and retail and industry and energy companies. The book value of those borrowings was ISK 190 billion at the end of the period (31.12.2014: ISK 184 billion).

Assets are primarily pledged against borrowings associated with the acquisition of the pledged assets. Two major events are most significant. Assets were acquired from the Central Bank of Iceland in conjunction with the recapitalization of Arion Bank on 8 January 2010 and a portfolio of mortgages was acquired from Kaupthing hf. and is pledged against a structured covered bond that Arion Bank took over as issuer of from Kaupthing hf. at the end of 2011.

The Group has pledged bonds against short term lending from the Central Bank of Iceland and against short positions, related to swap agreements, to hedge market risk of those assets.

### 31. Equity

#### *Share capital and share premium*

According to the Bank's Articles of Association, total share capital amounts to ISK 2,000 million, with par value of ISK 1 per share. The holders of ordinary shares are entitled to receive dividends as approved by the general meeting and are entitled to one vote per share at Shareholders' meetings.

	Number (million)	31.3.2015	Number (million)	31.12.2014
Issued share capital .....	2,000	75,861	2,000	75,861

Share premium represents excess of payment above nominal value that Shareholders have paid for shares issued by Arion banki hf.

## OFF BALANCE SHEET INFORMATION

### 32. Obligations

	31.3.2015	31.12.2014
<i>Guarantees, unused overdraft and loan commitments the Group has granted its customers</i>		
Guarantees .....	11,762	9,542
Unused overdrafts .....	38,035	38,890
Loan commitments .....	80,487	56,363

#### *Depositors' and Investors' Guarantee fund*

The Icelandic parliament has discussed a bill on a new Depositors' and Investors' Guarantee Fund, without conclusion of the matter. Even though the law has not been amended Icelandic bank's have made quarterly payments to a separate division within the fund since 2010. Despite this change in execution and due to uncertainty of the shape of future legislation the liability brought forward from previous years is not changed from the balance of ISK 2,669 million. The Group has granted the Fund a guarantee for obligations amounting to ISK 3,210 million.

### 33. Assets under management and under custody

31.3.2015 31.12.2014

Assets under management .....	963,530	923,599
Assets under custody .....	1,388,849	1,337,561

### 34. Legal matters

The Group has formal controls and policies for managing legal claims. Once professional advice has been obtained and the amount of loss reasonably estimated, the Group makes adjustments, if appropriate, to account for any adverse effects which the claims may have on its financial standing. When the Group is of the opinion that it is to the detriment of the Group's case to disclose potential amounts relating to legal claims, it elects not to do so. At the end of the period, the Group had several unresolved legal claims.

#### i) Contingent liabilities

##### *Investigation and legal proceedings regarding alleged breaches of competition law*

The Bank and Valitor hf. reached a settlement with the Icelandic Competition Authority (ICA) in December 2014 concerning an investigation into the structure of the payment card system. The central issue in the settlement concerned changes to the way in which interchange fees, which card companies pay to the banks, are decided and the awarding of customer loyalty points. The Bank has already implemented the agreed changes. As part of the settlement the Bank paid a fine of ISK 450 million and Valitor hf. ISK 220 million. A formal Decision with reasoning behind settlement has not yet been published by the ICA, but is expected shortly. Further, under the settlement changes were made to the ownership of Valitor hf., with acquisition by the Bank of Landsbankinn's stake in Valitor Holding hf. In June 2013 Kortþjónustan hf. filed a suit, against the Bank and Valitor hf., as well as Landsbankinn hf., Íslandsbanki hf. and Borgun hf., claiming damages for the alleged loss suffered by Kortþjónustan hf. in relation to above mentioned case. The case is being contested before the District Court of Reykjavík.

The ICA has also opened a formal investigation into the alleged abuse of an alleged collective dominant position by the three largest retail banks in Iceland, including the Bank. The investigation was initiated by separate complaints from BYR hf. and MP banki hf. made in 2010. The complaints from BYR hf. and MP banki hf. concern the terms of the Banks' mortgage arrangements, which, according to the complaint, deter individuals from moving their business to other banks and thereby restrict competition. The extent of the investigation and outcome is still uncertain as well as any effect on the Group. However, if the Bank will be deemed to have violated the Competition Act, it could result in a fine or restrictions by the ICA.

# NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

---

## 34. Legal matters, continued

In April 2013 the ICA imposed a ISK 500 million fine on Valitor for abusing its dominant position on the payment card market and violating conditions set in an earlier decision of the Authority. Valitor appealed the decision to the Competition Appeals Committee. In October 2013 the Committee confirmed the decision of the Competition Authority. In May 2015 the District Court of Reykjavik confirmed the decision but lowered the fine to ISK 400 million. Whether the judgement will be appealed to the Supreme Court is not known at present time, but the time limit for appeal is three months.

### *Legal proceedings regarding damages*

The former chairman of the Board of BM Vallá hf., together with Lindarflöt ehf., have filed two cases against the Bank claiming damages. The plaintiffs claim in total damages in the amount of over four billion ISK plus further specified interests. The plaintiffs claim that the Bank caused them, as shareholders of BM Vallá and Fasteignafélagið Ártún, damage by not granting the companies financial restructuring and thereby forcing the companies into bankruptcy. The Bank believes more than less likely that it will be acquitted of the plaintiff's claims in both cases and has therefore made no provision.

### ii) Other legal matters

### *Legal proceedings regarding CPI loans*

In 2013 the Supreme Court of Iceland requested an Advisory Opinion from the EFTA Court in two cases regarding the interpretation of certain provisions of EC Directives. In the cases the disagreement was whether the CPI-indexation of a consumer loan and its presentation was in accordance with certain provisions of Icelandic law on contracts and consumer loans. An Advisory Opinion in the first case was published 28 August 2014 where the EFTA Court concluded, in short, that Directive 93/13/EEC does not generally prohibit contractual terms on the indexation of loans in contracts between lenders and consumers and that it was for the national court to assess whether the terms of such loans were unfair. An Advisory Opinion in the second case was published 24 November 2014 where the EFTA Court concluded i.a. that it is not compatible with Directive 87/102/EEC to calculate the total cost of the credit and the annual percentage rate of charge on the basis of 0% inflation if the known rate of inflation at the time of the credit agreement is not 0%. Furthermore the EFTA Court concluded that it was for the national court to assess, having regard to all the circumstances of the case, the legal consequences of and the remedies for such incorrect information. Following the Advisory Opinions the cases were continued at the District Court of Reykjavík. Judgments in both cases were pronounced in the District Court on 6 February 2015. The conclusion on the first case was that the indexation on the loan agreement was not considered an unfair contractual term. With respect to the second case, the District Court concluded that the lender could not, in the calculations of the total cost of the credit and the percentage rate of charge, assume that inflation was 0%. Therefore, the lender had not fulfilled its obligations to inform the borrower. However, the District Court concluded that this did not mean that the provisions of the loan agreement on such costs could be unconditionally ignored. In this respect the District Court pointed out that it should have been clear to borrowers, when taking out the loans, that price changes may occur during the loan period and that the loans would change in line with the CPI. The cases have been appealed to the Supreme Court. The first case will be heard before the Court on May 4, 2015. It is difficult to predict the outcome of the Supreme Court. If the Court finds in favour of the borrowers it is possible that the section of the loan agreements in general concerning the indexation of loans will be considered non-binding. It is also possible that the borrowers will be entitled to reimbursement of some or all the payments relating to CPI increases on their loans. The Group considers the possibility of this happening remote and has therefore made no provision due to this.

## 34. Legal matters, continued

### *The uncertainty regarding the book value of foreign currency loans*

In recent years there has been considerable uncertainty over the legality of foreign currency loans to individuals and companies and the recalculation of those loans which are clearly currency-linked loans in Icelandic krona. Firstly, there has been uncertainty over which loans are considered legal foreign currency loans and which loans are considered currency-linked loans in Icelandic krona, and secondly over how loans in the latter category should be recalculated. The Bank has been required to recalculate numerous loans which are considered currency-linked loans in Icelandic krona on the basis of the Interest and Indexation Act No. 38/2001 and after examining the judgments passed by the Supreme Court which were considered to set a precedent for the Bank's loans.

The uncertainty of legality of FX loans has continued in 2015 and the Group constantly monitors judgments involving itself and others to refine its provisions on foreign currency loans.

Although there is more clarity in the matters of FX loans there still remains uncertainty regarding foreign currency linked loans in three respects. Firstly, there is uncertainty over the legality of certain loans. Secondly, there is disagreement over the recalculation and settlement of the loans, i.e. what interest rates should be used when recalculating the periods when the borrower did not actually pay any interest, for example during so-called "freeze-periods." Thirdly, there is uncertainty over which interest rate should apply to currency-linked loans in the future, i.e. whether they should bear the Central Bank's non-indexed rate or the contractual interest rate for each loan.

Nevertheless, the Group considers its portfolio of foreign currency linked loans fully provisioned for the most likely outcome.

### iii) Legal matters concluded

In 2012 Kortapjónustan hf. filed a suit against Valitor, Borgun and Greiðsluveitan, claiming damages for the alleged loss suffered by Kortapjónustan hf. due to alleged breaches of competition law based on a settlement made by Valitor, Borgun and Greiðsluveitan with the ICA, published in an ICA Decision No 4/2008. The case was dropped in September 2014, and a new claim filed based on the findings of a court appointed evaluators on Kortapjónustan's alleged damage. The case was settled in early March 2015 with a payment of ISK 250 million to Kortapjónustan.

## 35. Events after Balance Sheet date

In April the Bank sold shareholding in Reitir fasteignafélag hf. as further discussed in Note 23.

In April the Bank increased its shareholding in Valitor Holding hf. when it purchased 0.6% shareholding. After the acquisition Arion Bank's shareholding in Valitor Holding hf. is 99.4%.

# NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

## RELATED PARTY

### 36. Related party

The Group has a related party relationship with Kaupskil ehf., being the ultimate controlling party with 87% stake in Arion Bank, the Board of Directors of Kaupskil ehf. and Kaupthing hf., being the parent company of Kaupskil ehf.

Icelandic State Financial Investments (ISFI, a separate state institution under the Ministry of Finance) manages a 13% stake in Arion Bank and thus has influence over the Group. ISFI and related entities are defined as related parties.

The Board of Directors of Arion Bank, key Management personnel of the Bank and the Group's associates are defined as related parties, as well as close family members of individuals referred to above and legal entities controlled by them.

No unusual transactions took place with related parties during the period. Transactions with related parties have been conducted on an arm's length basis. There have been no further guarantees provided or received for related party receivables or payables.

#### *Balances with related parties*

	Assets	Liabilities	Net balance
31.3.2015

Through the ownership of ISFI the Group has a related party relationship with Landsbankinn hf. Landsbankinn hf. provides banking services to the Bank's subsidiary Valitor hf. and has a traditional bank to bank relationship with Arion Bank hf. The Group holds assets amounting to ISK 22,822 million (31.12.2014: ISK 28,881 million) by Landsbankinn hf. and liabilities amounting to ISK 7,346 million at the end of the period (31.12.2014: ISK 7,332 million). Those amounts are not included in the table above.

# NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

## RISK MANAGEMENT DISCLOSURES

The Group faces various risks arising from its day to day operations. Managing risk is therefore a core activity within the Group. The key to effective risk management is a process of on-going identification of significant risk, quantification of risk exposure, actions to limit risk and constant monitoring of risk. This process of risk management and the ability to evaluate, manage and correctly price the risk encountered is critical to the Group's continuing profitability as well as to be able to ensure that the Group's exposure to risk remains within acceptable levels.

Further information regarding risk management is available in the Annual Financial Statements for 2014 and in the Pillar 3 Risk Disclosures for 2014, published on the Bank's website, [www.arionbanki.is](http://www.arionbanki.is). The Pillar 3 Risk Disclosures are not audited.

### 37. Credit risk

Credit risk is the risk that the Group will incur a loss because its customers or counterparties fail to discharge their contractual obligations.

Credit risk arises anytime the Group commits its funds, resulting in capital or earnings being dependent on counterparty, issuer or borrower performance. Loans to customers and credit institutions are the largest source of credit risk. Credit risk is also inherent in other types of assets, such as bonds and debt instruments, and off-balance sheet items such as commitments and guarantees.

#### *Maximum exposure to credit risk*

The following table shows the maximum exposure to credit risk for the components of the Interim Statement of Financial Position, at the end of the reporting period before the effect of mitigation due to collateral agreements or other credit enhancements.

<i>Maximum exposure to credit risk related to on-balance sheet items</i>	31.3.2015	31.12.2014
Cash and balances with Central Bank .....	63,575	21,063
Loans to credit institutions .....	125,643	108,792

Services .....	2.9%	2.8%
Public sector .....	1.4%	1.2%
Agriculture and forestry .....	0.8%	0.9%
	100.0%	100.0%

### *Collateral and other credit enhancements*

The amount and type of collateral required depends on an assessment of the credit risk of the counterparty and the exposure type. The main types of collateral obtained are as follows:

- Retail loans to individuals: Mortgages on residential properties.
- Corporate loans: Real estate, fishing vessels and other fixed and current assets, including inventory and trade receivables, cash and securities.
- Derivative exposures: Cash, treasury notes and bills, asset backed bonds, listed equity and funds that consist of eligible securities.

The value of collateral is based on estimated market value. The valuation of real estate is built on market price, official valuation of the Icelandic Property Registry, or the opinion of internal or external specialists. The valuation of fishing vessels takes into account related fishing quota.

Collateral value is monitored and additional collateral requested in accordance with the underlying agreement. Collateral value is reviewed in line with the adequacy of the allowance for impairment losses.

The collateral value in the table below is capped by the exposure amount.

# NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

## 37. Credit risk, continued

### *Neither past due nor impaired loans*

The Bank uses internal credit rating models to monitor the development of credit risk and to estimate customers' probability of default (PD). The Bank rates customers with one of three models. For large corporates the Bank uses quantitative information based on financial statements as well as qualitative data. Credit ratings of individuals and SMEs are based on statistical models using historical information which has been found to be predictive. The models are updated annually and recalibrated with current data with the aim of improving their predictive power. Year-on-year changes in risk classification of loans may in part be due to model refinement.

The table below shows loans to customers that are neither past due nor impaired, broken down by the Bank's classification scale, where 5 denotes the highest risk.

31.3.2015	Risk classification					Not rated	Total

# NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

## 37. Credit risk, continued

### *Large exposure*

A large exposure is defined as an exposure to a group of financially related borrowers which exceeds 10% of the Group's capital base according to FME rule No 625/2013.

The legal maximum for individual large exposures is 25% of the capital base, net of eligible collateral, and the sum of all large exposures cannot exceed 400% of the capital base.

The largest exposure to a group of connected clients at the end of the period was ISK 25 billion (31.12.2014: ISK 25 billion) before taking account of eligible collateral. The Group has three large exposures at the end of the period (31.12.2014: two exposures) net of eligible collateral. Nostro accounts are excluded.

no.	31.3.2015		31.12.2014	
	Gross	Net	Gross	Net
1 .....	16%	16%	14%	14%
2 .....	12%	12%	11%	10%
3 .....	10%	10%	<10%	<10%
<b>Sum of large exposure gross and net &gt; 10% .....</b>	<b>38%</b>	<b>38%</b>	<b>25%</b>	<b>24%</b>

No large exposure exceeds the legal limit of 25% of the Group's capital base at the end of the period.

The sum of exposures exceeding 10% of capital base is 38% of the Group's capital base before collateral mitigation or 38% net of eligible collateral, which is well below the 400% legal maximum.

The capital base which is used as a basis for large exposure excludes unaudited Q1 earnings.

## 38. Market risk

Market risk is the current or prospective risk that changes in financial market prices and rates will cause fluctuations in the value and cash flows of financial instruments.

Market risk arises from imbalances in the Group's balance sheet as well as in market making activities and position taking in bonds, equities, currencies, derivatives, and other commitments which are marked to market.

### *Interest rate risk*

Interest rate risk arises from the possibility that changes in interest rates will affect future cash flows or the fair value of financial instruments. The Group's operations are subject to interest rate risk associated with a mismatch between interest bearing assets and interest bearing liabilities. This mismatch is characterised by a large gap between the interest fixing period of assets and liabilities, with a large amount of liabilities being demand deposits while the interest rates of assets are generally fixed for a long period, resulting in a yield curve risk for the Group. The Group also faces interest basis risk between interest bearing assets and interest bearing liabilities due to different types of floating rate indices in different currencies, of which the largest one is EUR.

## NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

### 38. Market risk, continued

#### *Interest rate risk in the banking book*

The following table shows the Group's interest bearing assets and liabilities by interest fixing periods. The figures for loans to customers and borrowings are shown on a fair value basis, see Note 21, and are therefore different from the amounts shown in the Financial Statements. Defaulted loans are presented at book value, which is based on the value of the underlying collateral, and are therefore assumed to be independent of interest adjustment periods and placed in the 'Up to 3 months' category.

The Group's interest bearing assets and liabilities by interest rate adjustment periods

## NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

### 38. Market risk, continued

#### Currency risk

Currency risk is the risk of loss due to adverse movements in foreign exchange rates. The Group is exposed to currency risk through a currency mismatch between assets and liabilities. ISK denominated deposits are a primary source of funding for the Group whereas a substantial part of the Group's assets consist of foreign currency denominated loans to customers. Net exposures per currency are monitored centrally in the Bank.

## NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

### 39. Liquidity risk

Liquidity risk is defined as the risk that the Group, though solvent, either does not have sufficient financial resources available to meet its liabilities when they fall due, or can secure them only at excessive cost. Liquidity risk arises from the inability to manage unplanned decreases or changes in funding sources.

# NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

## 39. Liquidity risk, continued

### *Liquidity coverage ratio*

The liquidity coverage ratio (LCR) is part of the standards introduced in the Basel III Accord and is to be implemented in 2015 on a global level. The LCR is the result of a stress test that is designed to ensure that banks have the necessary assets on hand to withstand short-term liquidity disruptions. More accurately, LCR represents the balance between highly liquid assets and the expected net cash outflow of the Group in the next 30 days under stressed conditions.

To qualify as highly liquid assets under the LCR rules, assets must be non-pledged, liquid and easily priced on the market, repoable at the Central Bank and not issued by the Group or related entities.

The Central Bank has set a guideline for minimum LCR. In 2015, the LCR requirement is 100% in foreign currency and 80% in total (ISK and foreign currency). The latter benchmark increases by 10% every year until a 100% requirement is implemented in 2017.

Liquidity coverage ratio	31.3.2015	31.12.2014
FX .....	279%	254%
Total .....	192%	174%

### *LCR deposit categorization*

As per the LCR methodology, the Group's deposit base is split into different categories depending on customer type. A second categorization is used where term deposits refer to deposits with a residual maturity greater than 30 days. Deposits that can be withdrawn within 30 days are marked stable if the customer has a business relationship with the Group and the amount is covered by the Deposit Insurance Scheme. Other deposit funds are considered less stable. A weight is attributed to each category, representing the expected outflow under stressed conditions, i.e. the level of stickiness.

## NOTES TO THE INTERIM CONSOLIDATED FINANCIAL STATEMENTS

### 39. Liquidity risk, continued

The table below shows the breakdown of the Group's deposit base according to the LCR categorization, with the associated expected stressed outflow weights. Some similar categories are grouped together. The table contains deposits at the Bank and at banking subsidiaries. Thus, amounts due to Central Bank and amounts due to credit institutions at non-banking subsidiaries are excluded.

LCR categorization - amounts and LCR outflow weights

31.3.2015	Deposits maturing within 30 days				Term deposits*	Total deposits
	Less Stable	Weight (%)	Stable	Weight (%)

## 40. Capital management

The capital base at 31 March 2015 amounts to ISK 174,008 million. The capital adequacy ratio, calculated in accordance with Article 84 of the Act on Financial Undertakings was 21.8%, exceeding the minimum legal requirement of 8%.

The Group uses the standardised approach to calculate the capital requirements for credit risk and market risk and basic indicator approach for operational risk.

The Bank carries out an on-going process, the Internal Capital Adequacy Assessment Process (ICAAP), with the aim to ensure that the Bank has in place sufficient risk management processes and systems to identify, manage and measure the Bank's total risk exposure. The ICAAP is aimed at identifying and measuring the Group's risk across all risk types and ensure that the Group has sufficient capital in accordance to its risk profile. FME supervises the Group, receives the Group's internal estimation on the capital adequacy and sets capital requirements for the Group as a whole.

The Group is subject to capital requirements which are specified by the FME following the Supervisory Review and Evaluation Process (SREP). The Group's capital base exceeds the FME's SREP requirements.

## SIGNIFICANT ACCOUNTING POLICIES

The accounting policies adopted in the preparation of these Interim Financial Statements are consistent with those followed in the preparation of the Annual Financial Statements for the year 2014.

### 41. Going concern assumption

The Group's management has made an assessment of the ability to continue as a going concern and is satisfied that the Group has the resources to continue. In making this assessment, management has taken into consideration the risk exposures facing the Group which are further described in the Risk Management Disclosures. The Interim Financial Statements are prepared on a going concern basis.
